

When Quality **Matters**

Waste Recycling **Parts**

We're manufacturers and suppliers of a wide selection of waste recycling parts, and deliver to all the UK and worldwide. We can supply industrial parts for all shredding machinery, including the common Lindner, Weima, Jupiter, Untha, MTP, Weima and Vecoplan machines. From rotor knives to shredder parts, we carry large quantities of quality waste recycling parts.

Sheffield Gauge Plate offers a variety of different parts for the waste recycling market, including rotor knives, counter knives, shredder parts, screens, nuts, bolts and washers.

Our top-quality products are made from steel produced by reputable European and British manufacturers, and our bulk buying power ensures cost-effective pricing for our customers.

Have complete confidence that all our waste recycling parts, such as rotor knives, counter knives, shredder blocks, knife holders screens, screens, sickle plates, sealing plates, hardfaced sledges, nuts, bolts and washers are of the highest quality while still being competitive on price.

Sheffield gauge plate hold vast stocks of standard-issue parts for all common machines, however if you require a custom solution then Sheffield Gauge Plate also offer a comprehensive reverse engineering & stock holding service to give your business a head start.

Spare Parts For **All Machines And Industries**

Having been in the tool steel and machine parts industries for over 40 years, Sheffield Gauge Plate has built up a longstanding reputation for excellence and a network of recycling machine manufacturers.

As such, we're able to stay up to date with the latest machine specifications and keep a stock of the most sought-after parts from brands including Lindner, Weima, Untha, MTP and Vecoplan.

Our vast range of stock allows us to react to your spare parts requirements immediately. Our stock parts are available on next day delivery or same day collection, ensuring we have the parts and service to keep your machinery up and running.

Sheffield Gauge Plate partners with RDF, SRF and MRF production facilities around the world, providing them with all the spare parts they need for their industrial shredders, granulators and recycling machines.

Our global logistics partners mean that we can send your parts anywhere in the world quickly, so you won't be without that important spare part for long.

Fast Delivery When **You Need It Most**

If your recycling shredders, granulators and other machinery is out of action, your entire waste disposal business can be affected.

Even a few days can cost your company a lot of money. Delays can also jeopardise your relationship with your customers and future orders.

That's why Sheffield Gauge Plate is committed to sending you the parts you need, fast. Our vast stock of parts means we usually have what you need to hand, but if we don't, we can quickly make it to your precise specifications.

As well as a fast service, we also focus on quality. All of our spare machine parts are made using our UK or EU sourced tool steel, and created in our tool room. As such, we can manage every stage of the production process and ensure your spare parts meet OEM standards and your exact needs.
